# URA-AFT Vision Care Reimbursement Program

May 2020

**Why is this program needed?** Rutgers University provides a benefit for vision care to its employees, but it is not enough to cover all the costs; and it does not cover frames—only lenses. Rutgers’ management team refused to increase the benefit during union contract negotiations.

**How will it work?** The URA-AFT will reimburse **signed, dues-paying URA-AFT members** up to the same maximum amount provided by the Rutgers University Vision Care Plan on the balance of the total eligible expenses for the member and any eligible dependent. Claims are processed on a first-come first-served basis (up to and including the total amount approved in the URA-AFT annual budget for this program).

**Why members-only?** Tangible member benefits help to build URA’s signed, dues-paying membership by decreasing the “cost” of union membership.

**Become a member now!** Becoming a URA-AFT member makes you part of a group of 1.6 million AFT members worldwide. Our strength in numbers provides needed influence in Trenton and Washington to improve education policies, preserve pensions and strengthen labor laws—things that directly benefit you and your family.

At the local level, more members means more influence on Rutgers University to negotiate fair benefits and working conditions. If you are already a member, recruit your co-workers to join. If you are not a member, join now by visiting:

The URA-AFT Vision Care Reimbursement Program mirrors the Rutgers Vision Care Plan in dollar amount but covers both frames and lenses.

**Eligibility requirements:**

- ◆ Your claim must be for purchases made on or after July 1, 2019.
- ◆ Eligibility requirements for dependents are the same as the Rutgers Vision Care Plan.

**Provide the URA-AFT with:**

- (1) URA claim form found at [www.URA-AFT.org](http://www.URA-AFT.org)
- (2) Copy of the itemized receipt(s) showing the purchase of glasses and/or contact lenses with the store name and contact information.

**Send all documentation to:**
